**NETWORKS GROUP EARNS JUNIPER NETWORKS CHANNEL ELITE
CERTIFICATION
FIRST IN U.S. TO ACHIEVE NEW STATUS**

DETROIT – Sept.7, 2005 – NetWorks Group, an information security solutions provider, today announced its new Elite status in the Juniper Networks J-Partner channel program. NetWorks Group is the first of Juniper Networks’ resellers in the United States to achieve the Juniper Networks J-Partner Elite certification. NetWorks Group holds the top level of certification within Juniper Networks J-Partner Advanced Security specialization. Partners in this specialization have access to Juniper Networks Advanced Security products including SSL VPN, Intrusion Prevention and the more advanced firewall products.

The Juniper Networks J-Partner Reseller Program incorporates a three-tier certification structure and technology-specific specializations. The J-Partner Program is designed to enable and reward partners for the value they add by turning Juniper products into solutions that help customers address business critical networking and security challenges.

”NetWorks Group is a channel partner that has embraced the J-Partner program by achieving top level certifications to excel their own business model,” said Juniper Networks’ vice president, America’s Channels Robert Bruce. “Juniper Networks is pleased to recognize NetWorks Group and their Elite level of commitment to the J-Partner program.”

ABOUT NETWORKS GROUP

NetWorks Group provides information security solutions that mitigate risk while enabling secure online business. The Company's focus on security and consultative approach complement internal IT teams, providing increased security, productivity, and accountability without the cost of expanding current internal resources. In addition to providing expert security services, NetWorks Group specializes in vendor-neutral NetWorks Integrity Tested (NIT) technology recommendations that best match clients' business requirements and security objectives. NetWorks Group serves many vertical markets with a customer base that includes finance/banking, healthcare, retail, technology, automotive, manufacturing and insurance industries. Please visit www.networksgroup.com for more information.
